

BBB warrants our New and Remanufactured steering gears, pumps, rack and pinions, control valves and power cylinders to be free from defects in material and workmanship for the Lifetime of the product on the specific vehicle application for which the product was intended. Warranty is Limited to replacement of product or refund of original purchase price at BBB's sole discretion, to the original purchaser of the product.

OE Manufacturer's installation procedures must be followed to qualify for Limited Lifetime Warranty.

Additional REQUIRED procedures to qualify for Limited Lifetime Warranty:

- Fluid flush prior to component replacement
- Use of vehicle manufacturer's recommended power steering fluid or equivalent
- Vacuum bleed procedure to remove air from the system prior to initial vehicle start up following installation
- Replacement or cleaning of remote reservoir (on specific applications)

RECOMMENDED procedures to ensure longevity and performance of power steering system

- Replacement or installation of inline filter
- Replacement of hydraulic steering hoses in service longer than 5 years or 100,000 miles.

Additional Considerations:

- Warranty is VOID if the returned unit is missing components, disassembled, or damaged/broken as a result of improper installation or misdiagnosis of the power steering system.
- Warranty applies only to catalog specific applications for personal use passenger cars, vans and light trucks.
- All fleet, commercial, heavy duty and industrial applications are warranted for a period of 12 months or 36,000 miles, whichever comes first.
- There is no warranty for Off-Road and non-application specific vehicle installations.
